Coro Complete

A Comprehensive Security Suite

Elevate your cybersecurity with Coro Complete. Coro Complete is an integrated security platform that combines Coro's full range of modules from email security to data governance, cloud to network security. Coro Complete allows IT teams to deploy one, easy to use platform that covers all of their cybersecurity needs. Coro Complete brings unlimited access to all Coro security modules. **This is the ultimate solution for lean IT teams.**

Coro Complete dramatically reduces IT workloads by:

- ✓ Eliminating implementation and integration efforts
- ✓ Aggregating all alerts from all security modules to a single console
- ✓ Automatically resolving most security alerts
- ✓ Deploying only one endpoint agent for all modules

Coro Complete's modular architecture allows you to:

- ✓ Get all the security you need, from a single vendor
- ✓ Stay safe at one, affordable price
- ✓ Deploy a full cybersecurity stack in minutes

What do you get with Coro Complete?

Unlimited access to Coro's full range of security modules and add ons, providing comprehensive, easy cybersecurity coverage for your organization.

Modular Cybersecurity

With access to 14 modules covering all business security threats, you can become a true Managed Security Service Provider (MSP).

Coro cybersecurity modules snap together with a click of a button. No integration, no headaches. One pane of glass, one endpoint agent, one AI-driven data engine. One security platform with all the modules you need.

What makes Coro different?

One Dashboard

Modules snap in easily, eliminating the need for integrations and improving security posture.

One Endpoint Agent

Device posture, NGAV, EDR, VPN, firewall, and data governance are all on one easy-to-manage agent, eliminating agent conflicts.

One Engine

Modules inform each other through a shared data engine, eliminating the need for integration and improving security posture.

About Coro

Coro, the leading cybersecurity platform for small and mid-size businesses, empowers organizations to easily defend against malware, ransomware, phishing, data leakage, network threats, insider threats and email threats across devices, users, networks and cloud applications. Coro's platform automatically detects and

remediates the many security threats that today's distributed businesses face, without IT teams having to worry, investigate, or fix issues themselves. Coro has been named a leader in G2-Grid for EDR/MDR, received Triple-A grading (AAA) from SE LABS, and was named to Deloitte's Fast 500.

Join the thousands of companies trusting Coro with their cybersecurity!
